

Magneticar

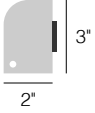

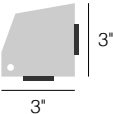

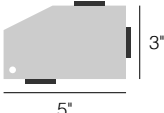

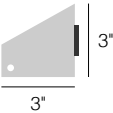

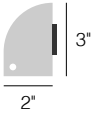

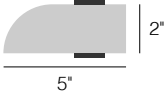

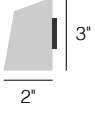

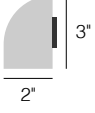

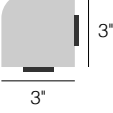

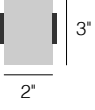

Magneticar is a foam block system that lets children create playful vehicles seamlessly. The pieces are easy to manipulate and quickly interchangeable which engages visitors in exploring multiple whimsical combinations. Thus, while playing they can test and analyze the differences between the vehicles they've created.

The assembly of the foam blocks is made possible thanks to an innovative magnetic module specifically designed and engineered by Toboggan Design for these vehicles. The vehicle pieces are made of EVA foam, a non-toxic material that is commonly used in products for children. **Magneticars** are available in various bright colors. The shapes can also be customized depending on the quantity ordered.

Magneticar - Standard pack of 120 units

Shape	Size & Magnets Position	Part name	Wheels Size	Quantity	Total
		MC-01-SW	 Small	6	60
		MC-01-LW	 Large	6	
		MC-02-SW	 Small	6	
		MC-02-LW	 Large	6	
		MC-03-SW	 Small	6	
		MC-03-LW	 Large	6	
		MC-04-SW	 Small	6	
		MC-04-LW	 Large	6	
		MC-05-SW	 Small	6	
		MC-05-LW	 Large	6	
		MC-06	Without Wheels	12	60
		MC-07		12	
		MC-08		12	
		MC-09		12	
		MC-10		12
