

# Playblok

**Playbloks** are customizable play-construction foam blocks. Originally meant to look like bricks, children love stacking the **Playbloks** as high as they can or arranging them to create imaginary constructions and sculptures. Simple to manipulate, these lightweight blocks are moulded of EPP solid shapes (non-toxic and non-porous expanded polypropylene). **Playbloks** are extremely long-lasting and easy to care for.

Their two graphic surfaces are entirely customizable, it's up to you to choose whether you prefer a solid color, an illustration, a logo or a combination of all of the above! The graphic surfaces are polycarbonate laminated ink-jet prints that are durable and easy to clean.

**Large**  
4" x 4" x 12"

**Medium**  
4" x 4" x 8"

**Small**  
4" x 4" x 4"
